

# PATTON & COOKE

## Cable Handling Tool

### A Safe & Efficient Cable Handling Solution

The quality and durability of Patton & Cooke's existing line of Mining equipment has already been proven throughout the mining industry world wide. We now have a new addition to the Patton & Cooke family. Introducing the new Patton & Cooke Cable Handling Tool. With an electrostatically applied powder coating and a PVC shaft with fiberglass back bone this tool is a handsome addition to any cable handlers arsenal. High resilient polyester powder coating ensures long lasting durability in extreme mining environments.

FEATURES	BENEFITS
